EXTRA SPECIAL NOTICE. timony of Rev. P. B. Wiles, Covington, Ky. Smith's Tonio Syrup, The Best and Safest Bemedy for Chills at Fever, or Fever and Ague.

COVINGTON, KY., May 21. There has not been for many years, in this country, such a general complaint about chills and fever. This depressing disease is now prevailing in many portions of Kentucky and elsewhere, where the people have long fiattered themselves that they were en-tirely exempt from its influence. To those who are thus afflicted, we wish to recommend Salith's Tonis Sgrup, believing it to be the very best remedy extant. Every one we have heard of using it, pronounce es upon it in the very highest terms. We have lat ly used it in our family with marked success. The ingredients are simple, and the Tonic can be used freely without any detriment to the constitution what ever. If the directions, which always accompany ev ery bottle, are carefully followed, it will in nine caes out of ten result in a permanent cure, whether the disease be of long or short standing.

We take pleasure in recommending this medicine o the subjects of this disease everywhere, sincerely believing that the use of it will verify every word we P. B. WILES. For sale by Bickford & Sinclair, Troy, Kansas.

EVIDENTLY KNEW HIM .- One evening, about two weeks ago, a couple of citizens of Troy were down on Peter's Creek, hunting, and came across an emigrant outfit preparing to go into camp. After a few inquiries and answers as where from, where going &c., the stranger asked: "Do you know a man named in Bridges, living about Troy!" On being answered in the affirmative, he added: "I used to know him, in

"What did he do there!" asked the hunters.

"Well, he traded around in cattle, and had a stor and got some money ahead; then he was elected to the State Senate. By this time, he considered himself one of the big men of the country, and got up a rail-road speculation, by which he was going to make his pile. But it smashed him as flat as a pan-cake—he lost every dollar he had. He fooled me into the business, too, and came near flattening me out. Then be went to Missouri, and I knew him there. I must call on him, to-morrow, and talk over old times." "What were his politics, in Iowa I inquired one

"Oh, he was a red-hot Republican. He had to be, r he could never have been elected to the Legislaare from that County."

"Perhaps you will be surprised to hear that he is a ed-hot Democrat now, and is publishing a Democrat ewspaper," remarked one.
"Well, no, it doesn't surprise me a bit. I know him oo well to be surprised at anything of that kind. But must call and see him, and talk over old times."

As the Bulletin has not mentioned anything about visit from this old Iowa friend, we judge that the cences of old times were not very pleasant to im. Then, the neuralgia was bothering him. DEATH OF GEORGE H. EGAR.-We regret to learn of the death of George Henry Egar, lately stationed at Elwood. Mr. Egar had been in declining health,

from consumption, for several years, but stood to his post in the railroad offices at Elwood, until a few weeks since, when he took to bed. About the 5th inst., his brother, William Egar, removed him to his house, in Brookfield, Mo., where he died on the 8th. and was buried on the 10th, by the Masonic fraterni Mr. Egar was unmarried. He was born in Syra

cuse, New York, in 1845, and was therefore in the 33c year of his age. We had but slight acquaintance with him, but judged him to be a man of cheerful disposition, who, although realizing that his time on earth was brief, did not permit it to mar his good umor. He was a man of good education, and of fine literary taste, as we had occasion to know, from the selections which he from time to time sent us, re questing their publication for preservation, and to furnish copies to friends. The Brookfield paper says that he was universally esteemed for his good quali ties of head and heart, and that an aged mother mong those who are left to mourn for his early los

A BUSINESS THAT IS NOT DULL.—The business orse stealing is not on the decline. Not a weel passes, but horses are stolen in this County. Far mers are becoming so much worried and plu by these thieves, that \$100 reward for the capture of a thief will not much longer satisfy them, but they will be forced to make fearful examples of all that are caught.

On last Thursday night, three horses and two mules were stolen from the stable of John D. Hier, near Elwood. The thieves halted, the next day, in the brush, near Independence Creek, between Doniphan and Atchison, where they tied the animals up, and lay down to sleep. One of the horses broke loose, which caused the others to make an uprour attracting the attention of a colored man, who, in company with a white man, went into the brush, and released the horses. The two thieves took the alarm, and fled, escaping pursuit. The stolen animals were

THE DEPOT .- Mr. Tuthill was in town, Tuesday making arrangements for rebuilding the railroad depot. He proposes to put it at the foot of Main Street if the citizens will pay for the necessary grading for side-tracks. It has been suggested that money for the purpose be raised by subscription. We think the best way would be for the Council to appropriate 5:40 8:45 11:35 2:45 p. M. the money out of the city funds. In this way, all the citizens would bear their just proportion, whereas by subscription, a few would have to foot the bill. We understand the authorities are getting estimates of the costs. The foot of Main Street is the mos suitable place for the depot, and the city could af ford the little expense of paying the additional cost of preparing the ground for the necessary side-track The Denver road has generally acted white with

PUBLIC CISTERNS .- Since the recent fire, public at ention has been directed to the means of fighting fre, should any occur in the business part of town The wells and eisterns are generally so situated, that a fire on the premises would render it impossible to use them. Some of our business men have suggested the idea that the city should have at least two large public cisterns, situated, say, near the north-wes nd south-west corners of the Public Square, to be filled by pipes leading from the roofs of the Cour House, and the business houses in the neighborhood They would be available anywhere in the busine part of town, and no fire would interfere with the ase. A few hundred dollars expended in means of contending against fires, would be well spent in this

1 Go to Os. Marcum for a good five cent cigar. We received a call, last Saturday, from W Cone, travelling agent for the Kansas Farme with Doniphan County—that, in his estimation, it was by far the best County in Kansas. But as be was travelling in the employ of a paper whose interests would not be promoted by making comparison to the disadvantage of any portion of the State, he suld not express his appreciation as emphatically

wint as he could privately. IF A correspondent in Western Kansas sends u copy of a newspaper from that section, with all the typographical errors marked, and boldly puts in the claim for the premium for the most miserably botch-ed paper in Kansas, and demands that we give it ence over the Butletin. We cannot do it. After a full examination, we assert that, as a specimen of botch work, the Troy Bulletin beats it out of sight. The Bulletin can discount it three pages, and then

EXTRAORDINARY SELF-SACRIFICE. - The Bulletin pro ims that, having published, as news, the fact that the Herd Law was to be enforced, it positively declines to publish the official notice of the Clerk as a dvertisement, at the expense of the people. This tremendous self-sacrifice, in refusing a job that would come to two or three dollars, is a big thing for capital for the Bulletia. Just how big a thing the people regard it, may be gathered from the following conver-

He's a bigger fool than Thompson's colt, that swam theriver to get a drink of water. The next thing, he will be sending out another arnest appeal to us Democrats to come to his assist ance, to save him from going under. It isn't any arder for us to pay taxes for publishing these no tices, than it is to pay money out of our own pockets to keep him up, and enable him to make personal capital out of such fool tricks as that. I despise a og-on'd fraud, any time."

The Bulletin tells of a prominent Republication who dropped in, last week, and subscribed for it, say ing that, although he was a Republican, he preferred the Bulletin to the Chief, because he was tired of bei taxed to death by rings, and he was not a rascal. A is name doesn't appear in the "Roll of Honor." I nust have subscribed on tick. Perhaps the most unsightly spectacle, to a strange oming into White Cloud, is the numerous hogs run ing at large. They room in droves up and down the treets; they wallow in our door yards, and make hemselves a filthy nuisance in general. Passengers on the trains remark their prominence; and not long since, some one who was alighting from the coach to line, created quite a little fun by uttering a couple o yelps, whereupon he was surrounded by a lot of squ ers. In fact, our city enjoys the odor abroad of b one of the first as regards the unrestricted liberty of swine. [Don't you know that there is an order of the Board in force, prohibiting the running at large of swine ! and don't you further know, that when the order was first made, there was almost as dism wl raised as some of you folks are raising nov wer the herd law order! It is pleasant to notice the attention bestowed upor the culture of fruit in this vicinity. White Cloud un doubtedly lies in the centre of one of the great fruit growing regions of the continent, and probably, before twenty years, every acre of the hills and ravine will be converted into orchards, vineyards, and fruit gardens. The tendency, even now, it may be observed, is for persons of moderate means to obtain tract of a few acres, a goodly part of which is, from the first levoted to small fruit. A kindred branch of industry is that of bee-keeping; and here, again, the facilities of this section are of a superior nature. The wild flower of the wooded belts of timber, at present, furnish a generous supply of honey, and it is the opinion of sons competent to judge, that the supply from the soms of the cultivated fruits will be still mor abundant-in fact, unlimited.

The colored school gave an exhibition, at the Christian Church, on Monday evening. The children are said to have acquitted themselves very creditably.

Schenek's Mandrake Pills remove all causes of bilousness, promptly start the secretions of the liver, and give a healthy tone to the entire system. It is no ordinary discovery in medical science to have found harmless cure for this stubborn complaint, which lishes all the results heretofore produced by a free use of calomel, a mineral justly dreaded by mankind, and acknowledged to be destructive in the extreme to the human system. That the properties of certain vegetables comprise all the virtues of calom without its injuries qualities, is now an admitted fact rendered indisputable by scientific tests. Those who use the Mandrake Pills will be fully satisfied that the best medicines are those provided by nature in the

In and About Bonishan. A good many persons seem anxions for old "Clod" to put in his appearance, in the Chief. We will, for the benefit of its numerous readers, give an item or two. The laboring time for "Clod-Hopper" is at hand, and it is not expected by the industrious to have much spare time, especially when the sun shines, to scribble. The smaller grain has been sown, and corn planting s upon us, with the farrowed rows ready for the dropper. Farmers feel stimulated, with a month's earlier season, to push spring work, to make ready or harvest, which; from every indication, will be upon us by the first of June. Prospects never were more flattering than at present for a full crop of all products; and the tide of thousands of emigrants that are pouring in from other States to the fertile lands of

Kansas, for future homes, is encouraging to old set tlers. Kansas will, at a not far distant day, be one of the wealthiest States in the Union; although she has had her draw-backs, and our people have had to work hard against adversity, to keep their heads above th waves of disappointments and poverty, but a good crop or two will put our farmers on an equal footing

with farmers of older States.

Towns and country are flooded with low, dirty vagand tramps, horse-thieves, and pilfering, idle scoun drels, whose business is to beg, steal, or do anything but work. There should be some lawful means used to rid the towns and country of these prowling, dirty scavengers of humanity. Stealing horses and petry largeny are every-day occurrences, and are increasing Why not do something to rid the country of every devil's son of them, that we may live in safety! On last Saturday, a wagon load of bard-looking, dirty, drunken low-downs passed through town, drawn by two raw-boned, blind ponies. The men had a fight one of them was considerably bruised up. The wom-en and children could not tell when their dirty carcasses had been refreshed with clean, pure water. They looked more like the breaking up of a bard winter, than anything else.

A majority of farmers here are opposed to the here law move, and if this law is to be imposed on the settlers at this time, there will be a raking amongst the voters of this County that will teil, and sweep the novers out of office, and place men there that are willing for the majority to rule. The only way of reconciliation is to leave it to the people, who are the sufferers, and let the majority rule; then all will be quiet. If this is not to be the case, there will be a rattling amongst the dry bones, next election. We make these statements fearlessly, and regardless of the consequences; and if our funeral is to come, let it be over the Herd Law.

A Singer sewing machine agent has been about th

Paul Hudnall is home again, but too late to see hi nother, as the funeral was ever. He did not get the dispatch in time. He will perhaps remain in Doniphan for sometime. Chills, Shakes, FEVER AND AGUE.

Dn. H. STRVENS:—

Dear Sir-Livel very grateful for what your valuable medicine: Vegetine, has done for my family. I wish to express my thanks by informing you of the wonderful cure of my son; also to let you know that Vegetine is the best medicine I ever saw for Chilis. Shakes, Ever and Agus. My son was sick with measles in 1873, which left him Hip-joint disease. My son suffered a great deal of pain, all of the time: the pain was so great that he did nothing but cry all the time. The doctors did not help him a particle: he could not lift his foot from the floor; he could not move without crutches. I read your advertisement in the "Louisville Courier-Journal" that Vegetine was a great Blood Purifier and Blood Food. I tried one bottle, which was a great benefit. He kept on with the medicine, gradually gaising. He has taken eighteen bottles in all, and he is compistely restored to health, walks without crutch or cane. He is twenty years of ago. I have a younger son, fifteen years of age, who is subject to Chilis. Whenever he feels one coming on, he comes in, takes a dose of the Vegetine, and that is the last of the Chili. Vegetine leaves no bad effect upon the system like most of the menicines recommended for Chilis. I cheerfully recommend Vegetine for such complaints. I think it is the gretest medicine in the world.

Respectfully, MRS.J. W. LLOYD.
